

STAMPCRETE COLOUR RELEASER

ANTIQUÉ-RELEASE AGENT

DESCRIPTION

STAMPCRETE Colour Releaser is a dry blend of hydrophobic powders, proprietary ingredients and coloring pigments designed for use in the concrete imprinting process to allow the clean release of texturing tools from the wet concrete surface.

STAMPCRETE Colour Releaser adds color variations and highlights to the textured surface, providing an attractive two-color antiqued look that very closely resembles natural materials such as cobblestone, brick, tile and slate.

ADVANTAGES

- Allows a clean bond break between fresh concrete and stamping mats.
- Ads color variation-antiquing affect for stamped surfaces.
- Easy removal process allows for controlled removal to achieve desired shading effect.

LIMITATIONS

The final color of the concrete is affected by many factors. It may be a function of the basic concrete mix ingredients (fine aggregate, coarse aggregate, water and cement), the weather, finishing techniques, experience of the applicators, and coloring method used.

COLOUR

Various colours

APPLICATION INSTRUCTIONS

After concrete is colored with **STAMPCRETE COLOUR HARDENER** and it reaches the proper set for imprinting, hand broadcast the release powder evenly over the surface to be stamped. Care should be taken not to trowel the release powder into the wet concrete; this will cause a permanent discoloration. After release

powder has been applied, follow your regular procedure for stamping concrete.

COVERAGE

Each 15 Kg Pail covers approximately 50-60 square meter

SHELF LIFE

One year when protected from moisture.

PACKAGING

15 kg/pail

SAFETY PRECAUTIONS

Use facemask or respirator. Do not allow getting into eyes. Keep out of the reach of children. Prolonged breathing will cause throat and lung irritation. Protect all adjacent areas.

CLEAN-UP

Clean all tools immediately after each use with clean water. Do not allow sealer to dry on tools. Keep rollers and brushes soaked in water if not cleaned immediately.

SERVICES
